Has Verifiable Professional Experience

Professional in Appearance and Attitude

the business owner and she is the primary caretaker.  
Experience the Professional Childcare Difference...

We are not your typical "babysitter". We are a professional wedding and event sitter company and we are the only local, on-site childcare providers that specialize in weddings

Hiring professional childcare for your event will:

- Let you have an "Adults-only" and a "Kid-friendly" event
- Provide a great accomodation for out-of-town guests who may not have access to childcare or for children in your bridal party
- Increase attendance of those with children
- Safeguard against any problems. If a child decides to cry, is bored, is hungry, or is tired- we will be there.

You and your guests can relax and enjoy your event without having to worry about the children. Let Wedding and Event Sitters by Charity care for and entertain your smallest guests because they can make a big impact!
